# Precision Navigation Reliable Everywhere

## L04 Navigation Anchor

Introducing the new arriving L04 navigation anchor, a cutting-edge device designed to enhance indoor navigation across various environments. With a robust lifespan exceeding 5 years, L04 ensures long-term reliability and performance. It offers flexibility with two battery options for versatility and supports the expansion of temperature sensors for critical environments. Suitable for shopping malls, hotels, hospitals, warehouses, and beyond, its durability, flexibility and advanced features enhance operation efficiency and safety across sectors.

### Application

Shopping Mall

Hotel

Hospital

Warehouse

5 years+ lifespan

Supports Bluetooth  
long-range feature

Flexible installation  
options

Support extended  
temperature sensor

### General Specs

Dimensions (mm):	73.8*46.3*26.5
Color:	White
Installation:	Screw with bracket   Sticker
Connectivity:	BLE 5.1
Transmission range:	150m in legacy mode 350m in Long range mode
Sensor:	Temperature sensor, accelerometer sensor (optional)
Battery capacity:	5200mAh (Li-SOCl <sub>2</sub> ) , 3200mAh (Alkaline), replaceable
Lifespan (default settings):	10+ years (Li-SOCl <sub>2</sub> ), 5 years (Alkaline)
Operating temperature:	-20°C/60°C (Li-SOCl <sub>2</sub> ), 0°C/40°C (Alkaline)
Certification:	FCC/CE/RoHS/REACH
