

MOKO SMART

SOS Button | Exquisite

H7L Helmet Tag

H7 Lite, a Helmet Bluetooth Tag, is mainly applicable for personnel tracking/falling down alarm/SOS alarm in most industrial and construction use cases. It is engineered for indoor and outdoor environments like mines, factories, warehouses, tunnels, and construction sites.

Thanks to its ultra-low power consumption, the beacon guarantees un-surpassed battery lifetime up to about 3 years.

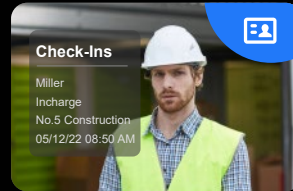

General Function

Personnel Tracking & Positioning

Press the button for emergency help

Access Control

Independent SOS button

IP67 Waterproof

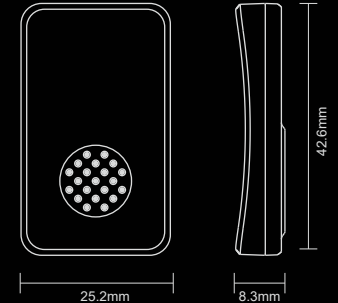

150m broadcast distance

Stationary alarm

General specifications

Connectivity:	BLE 5.0
Dimensions:	42.6*25.2*8.3mm
Color:	White (with blue button)
Material:	PC+TPU
Weight:	8.7g
IP Rating:	IP67
Battery Capacity:	220mAh
Operating temperature:	-20 C /+60 C
Transmission range:	Up to 150m (In open area without obstacles)
Installation:	3M sticker

Application Scenarios

Safer construction site

Positioning and Evacuation in the Mining Industry

Worksite management
